Moonlight is an American paranormal romance television drama created by Ron Koslow and Trevor Munson , who was also executive producer for all episodes with Joel Silver , Gerard Bocaccio , Gabrielle Stanton and Harry Werksman . The series follows private investigator Mick St. John (Alex O 'Loughlin) , who was turned into a vampire by his bride Coraline (Shannyn Sossamon) on the couple 's wedding night fifty @-@ five years earlier . In the present day , he struggles with his attraction to a mortal woman , Beth Turner (Sophia Myles) , his friendship with Josef Kostan (Jason Dohring) , and his dealings with other vampires in Los Angeles .

The series was commissioned by Warner Bros. Television in 2007 as a presentation lasting 14 ? 20 minutes . Alex O 'Loughlin , Shannon Lucio , Rade ?erbed?ija and Amber Valletta were cast in the lead roles , and Rod Holcomb was hired as director . David Greenwalt joined the staff in May 2007 as showrunner and executive producer with Joel Silver ; however , health reasons forced Greenwalt to leave the series . All of the original actors , apart from the male lead role , were recast in June 2007 , and Sophia Myles , Jason Dohring and Shannyn Sossamon replaced them . With an almost entirely different cast , a retooled , full @-@ length pilot for television audiences was re @-@ shot .

Although received poorly by critics , the pilot finished first among total viewers and adults 18 ? 49 for its night . The series received generally negative reviews , and averaged 7 @.@ 57 million American viewers per episode . Trevor Munson conceived the character of Mick Angel in 2004 and spent two and a half years writing a novel featuring the character . The story was adapted into a feature film script , and Bruce Willis was considered as a possibility for the lead role . The script was shown to Nina Tassler at CBS , who paired Munson with Ron Koslow , creator of Beauty and the Beast , to rewrite the script as a television series . The series was titled Twilight , and Koslow and Munson wrote the pilot , which Warner Bros. Television initially commissioned as a presentation lasting 14 ? 20 minutes in January 2007 . Joel Silver and Gerard Bocaccio were hired to be executive producers on the project under the former 's production banner , Silver Pictures , in the same month . Alex O 'Loughlin and Shannon Lucio were cast in the presentation , and Rod Holcomb was hired as director . The project was renamed Moonlight when picked up by CBS on May 14 , 2007 , prior the upfronts . David Greenwalt , creator of Miracles and co @-@ creator of Angel , joined the staff in May 2007 as showrunner and executive producer alongside Silver . CBS had hired Greenwalt during the pilot process to restructure the original concept by Koslow and Munson , but health reasons forced Greenwalt to leave the series , and Chip Johannessen took over showrunner duties in August 2007 .

= = = Casting = = =

During Greenwalt 's restructuring of the pilot , all of the original actors save for the male lead role of Mick St. John were recast in June 2007 : Shannon Lucio , Rade ?erbed?ija and Amber Valletta were originally cast in the roles of Beth Turner , Josef Kostan and Coraline Duvall respectively before Sophia Myles , Jason Dohring and Shannyn Sossamon replaced them . With an almost entirely different cast , a retooled , full @-@ length pilot for television audiences was re @-@ shot . Joel Silver approached Dohring " out of the blue and said , ' There 's a role , and I 'm making it younger '

" . Dohring read two pages of script featuring Josef , and was interested by the character 's " dark " and " sharp " personality . Dohring had to go through the normal audition process and was not sure if he would have gotten the role without Silver , who had " pushed it all the way through to the end " .

Munson explained that the goal of the casting changes was " to lighten the show up a bit " . He believed the changes granted the studio 's and network 's wish to " make it a little younger and hipper " . O 'Loughlin felt that the whole cast 's becoming " a little bit younger " especially affected the character Josef , as the originally chosen actor , ?erbed?ija , was twice Jason Dohring 's age . The creators and the network were concerned that Josef , whose relationship with Mick was important , would appear as more of a " father figure " rather than as a friend . O 'Loughlin supported the recasting of Josef with a younger actor due to the resulting " level of ease in that age difference " .

= = = Promotion and distribution = = =

To promote the series , Silver and the main cast attended the Comic @-@ Con International on July 27 , 2007 , where the series was featured . The series finale aired on May 16 , 2008 in the United States . The Sci Fi Channel began airing repeats of the series on January 23 , 2009 on Fridays at 9 pm / ET . The series averaged one million viewers per episode on the Sci Fi Channel , making it one of the better @-@ performing acquired series of the channel in recent years . The pilot introduces Mick St. John , a private investigator who has been a vampire for over fifty years . Mick meets Beth Turner , a reporter for the online newspaper BuzzWire , at the scene of the murder of a young woman . Mick and Beth begin investigating the crime together , helping each other to catch the killer . Flashbacks to 22 years ago show a domestic fight between Mick and his ex @-@ wife Coraline Duvall over a kidnapped girl . Mick lights the house on fire and rescues the girl , leaving Coraline to the fire . It is revealed that the little girl has grown up to be Beth , and that Mick has tried to watch over her and keep her safe over the years . In the present , Beth discovers that Mick is a vampire , and Mick reveals how one becomes a vampire and tells her the story of how he was turned by his bride , Coraline , on their wedding night .

Beth asks Mick to help her friend Morgan find her stolen cameras . When he meets her , Mick is completely shocked ; Morgan is identical to his ex @-@ wife , Coraline . He becomes even more confused when his vampiric sense of smell tells him that Morgan is human . Mick tries to expose Morgan as Coraline , but finally comes to believe that she is a doppelgänger when he sees that she does not have the fleur de lis tattoo on her shoulder as Coraline did . When alone , Morgan scrubs away the heavy makeup that has been covering the tattoo . Beth snoops through Mick 's property , and finds out Mick was the one who protected her as a little girl when she was kidnapped . Morgan goes with Mick to his apartment to clean up after almost getting hit by a car . Mick joins her in the shower and finally sees the tattoo on her shoulder , revealing her identity as Coraline . When Beth learns that Morgan is really Coraline , the lady who kidnapped her as a child , she goes to Mick 's apartment and stabs her with a wooden stake , narrowly missing her heart , not realizing that she has become human . Coraline goes to hospital , but recovers and leaves after being revealed to be a vampire again . Beth 's boyfriend Josh is kidnapped by a dangerous Los Angeles @-@ based gang . Mick and Beth witness the event and drive after him , but Josh is shot . Beth realizes that Josh is dying , and begs Mick to turn him into a vampire ; he refuses and Josh dies . While putting Josh 's affairs in order , Beth discovers that Josh was about to propose to her .

Mick encounters two vampires who are looking for Coraline . Once they leave , Mick visits his vampire friend Josef , who tells him that one of them was Lance (Jason Butler Harner) , a rich and powerful vampire . Mick finds Coraline at a storage facility working on a compound for the vampire cure . Coraline explains that during the French Revolution there were seven siblings of royal blood who were vampires , two of whom were Lance and Coraline . She then uses the compound to cure

Mick 's vampirism , although Lance arrives and takes her away . Mick enjoys life as a human , although the cure is only temporary . Beth 's boss at BuzzWire is killed , and a new assistant district attorney named Benjamin Talbot (Eric Winter) investigates the murder . Mick and Beth discuss the problems of having a romantic relationship , and although they end up kissing , Mick tells her he needs time to figure things out . Photos of Mick getting hit by a vehicle find their way into the hands of Talbot . Mick and Beth decide to start a romantic relationship , and go to a restaurant for their first date . When Beth quits her job at BuzzWire and becomes unemployed , Talbot offers her a job as a civilian investigator . Talbot receives a list of names of all the vampires in the area , including Mick , from an unknown source . Beth tells Mick that she cannot continue to date him because of their vampire @-@ human situation , but Mick says that he loves her and they kiss .

= = = Vampire mythology = = =

The conventions of Moonlight are based , in part , on a unique mythology . Some parts of the mythology that are common include a sire , that is the vampire who turns a human into a vampire ; though in the show the sire must teach him or her how to live as one . A vampire 's bite is not enough to turn a human into a vampire ; the human , when near death , must drink the sire 's blood or have vampire blood in his or her system at the moment of death . The process of vampirization also affects their genetics , causing their DNA to be fundamentally altered to suit their bodies ' new state . This makes genetic testing between vampires and their human relatives impossible unless the vampire has a sample of their own human DNA from before they were turned , such as a lock of hair . They must consume human blood to survive . They also develop psychic powers and can glimpse the future and the past . This ability , along with their night vision , is an extension of their heightened senses . Daylight does not kill vampires , but does make them progressively weaker . Silver and fire are toxic , whereas garlic , holy water and crucifixes are useless . A vampire 's image cannot be captured with analogue cameras containing silver emulsion in the film ; digital cameras are able to capture an image because they do not use silver emulsion . Though undead , vampires have a pulse , are not cold blooded (but still don 't produce body heat as seen in episode 11 so as heat signature cameras won 't see them) , and cannot turn into a bat . The best ways to kill them are by decapitation or burning ; a stake through the heart is painful but only causes paralysis . Moonlight vampires have many of the preternatural abilities as described in vampire mythology ; they have superhuman strength and speed , they heal rapidly from any wound , they can defy gravity to a limited degree to perform parkour feats , their bite has hypnotic effects on weak @-@ minded humans , and they are immortal . Their powers increase as they get older . Their blood has drug @-@ like affects when consumed by humans ; causing euphoria and temporarily heightened senses .

= = Reception = =

Moonlight attracted a loyal and devoted fan base which included internet communities . Fans Christine Contilli , Elizabeth McGinnis , and Barbara Arnold coordinated with the American Red Cross , CBS , and Warner Bros for a series of charity blood drives involving 33 states , and Alex O 'Loughlin became a national spokesman for the charity . The series averaged 7 @.@ 57 million American viewers per episode , ranking 89 out of 281 in the 2007 ? 08 ratings . The pilot finished first among total viewers and adults 18 ? 49 for its night , and was seen by 8 @.@ 54 million American viewers . By comparison , the series finale was watched by 7 @.@ 47 million viewers upon its original broadcast , making it the 41st most watched episode of the week . Moonlight was the 90th most watched series of the 2007 ? 2008 Television season with 7 @.@ 53 million viewers .

Reviews were generally negative for the pilot , and the early episodes . Metacritic gave the pilot a Metascore of 38 out of 100 , signifying generally negative reviews . Tim Goodman of The San Francisco Chronicle considered the series to be " the worst new fall show " . The writing was criticized as " ponderous " , and having " familiar , conventional plots " . The dialogue was described by Maureen Ryan of the Chicago Tribune as " groan @-@ inducing " . The acting of the pilot was

criticized as "sub @-@ par" and "woeful". Matthew Gilbert of the Boston Globe depreciated the chemistry between O'Loughlin and Myles as "artificial", and said that they "exchange lines of dialogue with a stilted rhythm and no natural flow". O'Loughlin was described as a "flatliner", and "passable in the lead role". Not all reviews, however, were as negative. Kara Howland of TV Guide gave the pilot a positive review, and thought it was a "solid start". Travis Fickett of IGN praised the actors, however, and felt that O'Loughlin did "a decent job", and that Myles was "perhaps the most promising aspect of the show". Ryan commended Myles as "reasonably good". Several critics praised Jason Dohring's portrayal of Josef. One said that he gave the series "a small burst of energy", while another said that he made it "crackle with a bit of wit". Dohring was described as "a welcome presence", and one critic wished for "a bit more screen time".

Reviews of the second episode were generally more positive than the pilot. Travis Fickett of IGN described the episode, and the series as a whole, as "vampire mediocrity with a slight hint of potential". He compared the episode to the television series *Angel*, saying it was "weaker on virtually every front". Jen Creer of TV Squad criticized the writing, but said she felt that Sophia Myles was doing a "decent job of developing her character and embracing the material". Carl Cortez of iFMagazine.com said this episode improved "leaps and bounds", and was a "step in the right direction". He gave the episode a 'C' rating, saying the direction was "lifeless" and the acting was "stilted". AOL TV placed the show in its list of TV's Biggest Guilty Pleasures.

= = Cancellation = =

Les Moonves, President of CBS, stated on December 4, 2007, that *Moonlight* was likely to return for a second season. Due to the 2007 ? 2008 Writers Guild of America strike, production of the series was halted by December 19, 2007, and only twelve episodes of the original thirteen @-@ episode order were produced. Once the Writers' Strike ended, CBS announced that *Moonlight* would return April 25, 2008 with four new episodes, to be part of the series' first season. On May 13, 2008, CBS announced that *Moonlight* was officially cancelled. Following the CBS cancellation, Warner Bros. Television inquired with other outlets about their interest in the series. One of the outlets approached was Media Rights Capital, which is responsible for The CW's Sunday night programming, although it decided not to acquire the series. It was later reported that Syfy was considering picking up the series. Writer and executive producer Harry Werksman said that "talks" were under way for a second season, and noted the possibility of a film. On June 23, 2008, James Hibberd of The Hollywood Reporter reported that efforts to sell *Moonlight* to another network had failed, and that the series was permanently cancelled.
