

= 1970 Canada hurricane =

The 1970 Canada hurricane was an unnamed tropical cyclone that brought impact to Bermuda and Newfoundland . The fourth hurricane and ninth tropical storm of the annual hurricane season , this system developed northeast of the Bahamas as a subtropical depression on October 12 . While tracking northeastward , the system intensified , becoming a subtropical storm on the following day . The subtropical storm transitioned into a tropical cyclone on October 16 , and strengthened into a hurricane about twelve hours later . The hurricane later bypassed Bermuda , before further intensifying into a Category 2 hurricane on the Saffir ? Simpson hurricane wind scale . Thereafter , the hurricane accelerated rapidly northeastward , and made landfall on the Avalon Peninsula of Newfoundland as a Category 1 hurricane . It transitioned into an extratropical cyclone early on October 17 .

The system produced tropical storm force winds on Bermuda , which caused the suspension of schools , transportation , and interrupted businesses , although minimal structural damage occurred . Light rainfall was also reported on the island . Hurricane force winds were observed throughout Newfoundland , which caused damage to structures , though mostly limited to broken windows . Rough seas damaged fishing dories and a fishing ramp on the Atlantic coast of the island . The cost of damage on the Burin Peninsula was estimated to be in the thousands of dollars , although the specific figure is unknown . Heavy rainfall was also reported in the region , with precipitation in Quebec reaching nearly 5 inches (130 mm) . On the French Territory of Saint Pierre and Miquelon , several buildings and houses lost their roof due to strong winds .

= = Meteorological history = =

On October 11 , 1970 , satellite images indicated that a tropical depression developed north of Hispaniola . However , according to post @-@ analysis , a subtropical depression actually formed on October 12 at 1200 UTC . The depression slowly intensified over the next few days , and became a subtropical storm on October 12 , though this was operationally unnoticed by the National Hurricane Center . By October 13 , satellite imagery indicated that convection associated with the depression merged with a weak stationary front . As a result , the National Hurricane Center no longer considered it purely tropical and classified the system as a " subtropic storm " on October 14 . Later that day , the National Hurricane Center began issuing special bulletins for the storm , indicating the possibility of the system acquiring tropical characteristics .

Early on October 16 , satellite imagery indicated that the storm was developing a cloud pattern typical of a normal tropical cyclone . In addition , Reconnaissance aircraft flight data indicated that a warm core was developing . As a result , the system had acquired enough characteristics to be considered a tropical cyclone at 0000 UTC on that day . Later that day , the storm strengthened enough to be upgraded to a hurricane at 1200 UTC . Six hours later , the system passed just west of Bermuda , although winds were well below hurricane force on the island . Spiral cloud bands and an eye feature were observed on radars as the hurricane bypassed the island . The warm core persisted into October 17 , which indicated that the hurricane was fully tropical for at least 30 ? 36 hours . Early on October 17 , the National Hurricane Center discontinued bulletins on the system , while it was located about 150 miles (240 km) northeast of Bermuda .

At 0600 UTC on October 17 , the system intensified into a Category 2 hurricane on the Saffir ? Simpson hurricane wind scale . Six hours later , the hurricane attained its peak intensity with maximum sustained winds of 105 mph (165 km / h) and a minimum barometric pressure of 974 mbar (28 @. @ 8 inHg) . Although a radio bulletin by the Naval Communications Station Washington , D.C. Transmitter (NSS) at 1200 UTC noted that it had hurricane characteristics , the National Hurricane Center did not name the storm . By 1800 UTC , a cold front began impacting the circulation of the hurricane , which caused the storm to weaken back to a Category 1 hurricane , and began losing its tropical characteristics . At approximately 2330 UTC on October 17 , the hurricane made landfall on the Avalon Peninsula of Newfoundland with winds of 80 mph (130 km / h) . Only 30 minutes later , the hurricane transitioned into an extratropical cyclone . The remnant extratropical

cyclone curved abruptly northward and later re @-@ emerged into the Atlantic , before dissipating on October 20 .

= = Impact = =

Late on October 16 , the storm passed close to Bermuda as a minimal Category 1 hurricane , causing strong winds on the island . Maximum sustained winds of 48 mph (77 km / h) and gusts up to 58 mph (93 km / h) were recorded . At an elevated location , an anemometer reported sustained winds as high as 100 mph (155 km / h) . Strong winds caused the suspension of school , transportation , and disruption to businesses across Bermuda . A riot started by the recurrence of vandalism and arson plagued the island for two weeks leading up to the storm . However , merchants and police were forced to ease their anti @-@ riot efforts to board up their windows . In addition to high winds , the storm also produced light rainfall on the island of Bermuda , which peaked at 1 @.@ 68 inches (43 mm) .

Shortly before transitioning into an extratropical cyclone , the hurricane moved across the extreme southeastern portion of Newfoundland at Category 1 intensity . As a result , high winds were reported across the region ; wind speeds of 90 mph (145 km / h) occurred on the Burin Peninsula . Wind damage occurred throughout the island , although mostly limited to broken windows , trees being uprooted , and fences knocked over . In addition , a house under construction blew over in Marystown ; another house was abandoned in St. John 's for the fear of the roof blowing off . Hydro poles also caught fire in Burin and Grand Banks . Rough seas caused by the storm sunk or damage several fishing dories in Grand Bank and three fishing premises were washed away in Lamaline . In addition , a fishing ramp was washed out to sea in Lourdes Cove . Damage in the Burin Peninsula alone totaled to thousands of dollars , although the exact figure is unknown .

Heavy rainfall also occurred across much of the Atlantic Canada region , especially in areas well west of the path of the storm . The highest amount of precipitation from the storm was reported in Quebec , where rainfall peaked at 4 @.@ 9 inches (120 mm) in the extreme eastern part of the province . Rainfall occurred further north into Labrador , with precipitation of at least 1 inch (25 mm) being reported as far north as Groswater Bay . Further south in the provinces of Prince Edward Island , Nova Scotia , and New Brunswick , rainfall amounts did not exceed 4 inches (100 mm) . No flooding was reported in Atlantic Canada . On the offshore French Territory of Saint Pierre and Miquelon , severe wind damage was also reported on Saint @-@ Pierre . Several homes and a church lost its roof .

An accompanying music video , directed by Nigel Dick , portrays Spears as a student from a Catholic high school , who starts to daydream that she is singing and dancing around the school , while watching her love interest from afar . In June 1997 , Spears was in talks with manager Lou Pearlman to join female pop group Innosense . Lynne Spears asked family friend and entertainment lawyer Larry Rudolph for his opinion and submitted a tape of Spears singing over a Whitney Houston karaoke song along with some pictures . Rudolph decided he wanted to pitch her to record labels , therefore she needed a professional demo . He sent Spears an unused song from Toni Braxton ; she rehearsed for a week and recorded her vocals in a studio with a sound engineer . Spears traveled to New York with the demo and met with executives from four labels , returning to Kentwood the same day . Three of the labels rejected her , arguing audiences wanted pop bands such as the Backstreet Boys and the Spice Girls , and " there wasn 't going to be another Madonna , another Debbie Gibson , or another Tiffany . " Two weeks later , executives from JIVE Records returned calls to Rudolph . Senior vice president of A & R Jeff Fenster stated about Spears 's audition that " It 's very rare to hear someone that age who can deliver emotional content and commercial appeal . [...] For any artist , the motivation ? the ' eye of the tiger ' ? is extremely important . And Britney had that . " They appointed her to work with producer Eric Foster White for a month , who reportedly shaped her voice from " lower and less poppy " delivery to " distinctively , unmistakably Britney . " After hearing the recorded material , president Clive Calder ordered a full album . Spears had originally envisioned " Sheryl Crow music , but younger more adult contemporary " but felt all right with her label 's appointment of producers , since " It made more sense to go pop , because I can dance to it ? it 's more me . " She flew to Cheiron Studios in Stockholm , Sweden , where half of the album was recorded from March to April 1998 , with producers Max Martin , Denniz Pop and Rami Yacoub , among others .

Martin showed Spears and her management a track titled " Hit Me Baby One More Time " , which was originally written for American group Backstreet Boys and R & B group TLC ; however , when the song was submitted to them , they rejected it . Spears later claimed that she felt excited when she heard it and knew it was going to be a hit record . " We at JIVE said , ' This is a ... smash ' , " revealed the label 's A & R executive at the time Steven Lunt ; however , other executives were concerned that the line " Hit Me " would condone domestic violence , later being revised to " ... Baby One More Time " . Spears recorded her vocals for the song in March 1998 at Cheiron Studios in Stockholm , Sweden . The singer revealed that she " didn 't do well at all the first day in the studio [recording the song] , I was just too nervous . So I went out that night and had some fun . The next day I was completely relaxed and nailed it . You gotta be relaxed singing ? ? Baby One More Time ? " . The track was produced by Denniz Pop , Martin and Rami , and was also mixed by Martin at Cheiron Studios . Thomas Lindberg played the guitar , while Johan Carlberg played the bass guitar . Background vocals were provided by Spears , Martin and Nana Hedin . Spears also recorded a track called " Autumn Goodbye " , written and produced by Eric Foster White , that was released as a b @-@ side to " ... Baby One More Time " . The track was recorded in 1998 at 4MW East Studios in New Jersey . " ... Baby One More Time " was released as Spears 's debut single on October 23 , 1998 , by JIVE Records , when she was only 16 years old . The singer has named " ... Baby One

More Time " as one of her favorite songs from her entire career , naming " Toxic " and " He About to Lose Me " as the other two .

= = Composition = =

" ... Baby One More Time " is a teen pop and dance @-@ pop song that lasts for three minutes and 30 seconds . The song is composed in the key of C minor and is set in the time signature of 4 / 4 common time with a moderate tempo of 93 beats per minute . Songwriting and production is largely based on previous Cheiron productions , most notably Robyn Carlsson 's " Show Me Love " which shows similar song scheme , drum patterns , wah guitars and piano hits . Spears 's vocal range spans over two octaves from E ? 3 to the high @-@ tone of G5 . The song begins with a three @-@ note motif in the bass range of the piano , an opening that has been compared to many other songs , such as " We Will Rock You " (1977) , " Start Me Up " (1981) and the theme song of the film Jaws due to the fact the track " makes its presence known in exactly one second " . According to magazine Blender , " ... Baby One More Time " is composed by " wah @-@ wah guitar lines and EKG @-@ machine bass @-@ slaps " .

Claudia Mitchell and Jacqueline Reid @-@ Walsh , authors of Girl Culture : Studying girl culture : a readers ' guide (2008) , noted the lyrics of the song " gesture toward [Spears] longing for the return of an ex @-@ boyfriend . " Spears said " ... Baby One More Time " is a song " every girl can relate to . She regrets it . She wants him back . " The lyrics , however , caused controversy in the United States , because the line " Hit me baby one more time " supposedly has sadomasochistic connotations . As a response , the singer said the line " doesn 't mean physically hit me . [...] It means just give me a sign , basically . I think it 's kind of funny that people would actually think that 's what it meant . " Contemporary author Ben Shapiro deemed the song 's lyrics as suggestive , mostly " Oh baby , baby / The reason I breathe is you / Boy , you got me blinded / Oh pretty baby / There 's nothing that I wouldn 't do " and " When I 'm not with you I lose my mind / Give me a sign / Hit me baby one more time " .

" ... Baby One More Time " received generally favorable reviews from contemporary critics , who mostly praised its composition . Marc Oxoby , author of The 1990s (2003) , noted the song " was derided as vapid by some critics , yet tapped into the same kind of audience to whom the Spice Girls music appealed , young teens and pre @-@ teens . " Amanda Murray of Sputnikmusic commented , " [" ... Baby One More Time " is] well @-@ composed , tightly arranged , and even with Spears 's vocal limitations it goes straight for the proverbial pop jugular . " She also said that the song was a highlight in the pop music genre and added , " There is little doubt that ' ... Baby One More Time ' will be long remembered as one of the cornerstones of pop music in general , and it is a strong front @-@ runner as the prototype for the late 90s pop resurgence . " Bill Lamb of About.com considered " ... Baby One More Time " as Spears 's best song , saying , " the song is full of hooks and a big mainstream pop sound . The accompanying schoolgirl video caused a sensation , and , when the single hit No. 1 , Britney was assured of stardom . " In a list compiled by Sara Anderson of AOL Radio , " ... Baby One More Time " was ranked sixth in a list of Spears 's best songs . She noted the singer " somehow made the school girl outfit and pink pom @-@ pom hair @-@ ties trendy again , worn by every tween in the succeeding years . "

Beth Johnson of Entertainment Weekly called " ... Baby One More Time " a " candy @-@ pop @-@ with @-@ a @-@ funky @-@ edge smash " , while Stephen Thomas Erlewine of Allmusic said the song was " ingenious " , Brian Raftery of Blender called it " a perfectly fine , slickly conceived pop tune . [..] At the time , teen @-@ pop was still a boys ? club , but while the guys were crooning about crushes , Spears was already planning the sleep @-@ over party " . Rolling Stone called it " some of the best radio pop of the past decade @-@ plus " . NME considered " ... Baby One More Time " " incredible " , commenting that " it 's a symphony of teenage lust as fully realised as anything Brian Wilson ever wrote ? a truly grand pop song that overwhelms any lingering undercurrent of

Lolita paedo @-@ creepiness through the sheer fanatical earnestness of its delivery . " " ... Baby One More Time " won a Teen Choice Award for Single of the Year and an MTV Europe Music Award for Best Song .

The music video was filmed on August 6 , 7 and 8 , 1998 , and was directed by Nigel Dick . After being chosen , Dick received criticism from his colleagues about wanting to work with Spears . He responded saying , " It 's a great song . I don 't know anything about Britney . I never watched The Mickey Mouse Club . She seems like a great kid and she 's very enthusiastic , but I just love the song . It 's just a great song " . The video 's original setup was in high contrast to what eventually

became the final product . The plan was to have the video in a cartoon @-@ like environment , in a likely attempt to attract the audience of younger children . Spears was unhappy with this , and argued that she wanted her video to reflect the lives of her fans and wanted to set the video in a school . Spears pitched this idea to Dick , and further explained she wanted the video to have dance scenes . The original setting was scrapped and replaced with Spears 's concept . Dick 's original idea for the wardrobe was jeans and a T @-@ shirt , but during the wardrobe fitting Spears decided to change it for a schoolgirl outfit . Dick said that " Every piece of wardrobe in the video came from Kmart , and I was told at the time not one piece of clothing in the video cost more than \$ 17 . On that level , it 's real . That probably , in retrospect , is a part of its charm . " The knotted shirt design was Spears 's idea , she recollects saying , " The outfits looked kind of dorky , so I was like , ' Let 's tie up our shirts and be cute ' " . About the experience of shooting her first music video , Spears said , " It was a wonderful experience . All these people there , working for you . I had my own trailer . It was an amazing experience " . The music video was shot at Venice High School , the same school used to film the movie Grease . The video premiered on MTV and other video stations in November 1998
