

## = Ohio State Route 750 =

State Route 750 ( SR 750 ) is an east - west state highway located in central Ohio . The western terminus of the state highway is at a signalized intersection with SR 257 nearly 2 @. @ 5 miles ( 4 @. @ 0 km ) west of Powell , just outside the Columbus Zoo and Aquarium . The highway travels east to Highbanks Metro Park and Polaris Fashion Place . The eastern terminus of SR 750 is at Interstate 71 ( I @-@ 71 ) in the far northern reaches of the city of Columbus . The route was designated in 1937 , and both termini were rerouted . The eastern terminus was extended east in 1997 , and the western terminus was rerouted south in 2007 .

## = = Route description = =

The entirety of SR 750 exists within southwestern Delaware County . SR 750 starts at SR 257 , near Columbus Zoo and Aquarium . SR 750 goes through Powell with no major intersections . After Powell , there is an intersection with SR 315 near the Olentangy River and the northwest corner of Highbanks Metro Park . The route soon intersects U.S. Route 23 ( US 23 ) in a large commercial area . Less than one mile later , SR 750 overpasses railroads owned by CSX and Norfolk Southern . The road dips southeastward , and becomes Polaris Parkway , as it slowly curves around the Polaris Fashion Place . Powell Road continues eastward toward Westerville . SR 750 ends at I @-@ 71 at an incomplete partial cloverleaf interchange , and Polaris Parkway continues eastward to Westerville . The highest traffic count is near US 23 , where 29 @, @ 690 vehicles travel the highway on average each day . The lowest traffic count is near SR 257 , where 8 @, @ 080 vehicles travel the highway on average each day . The highway is not a part of the National Highway System , a network of highways deemed most important for the country 's economy , mobility and defense .

## = = History = =

SR 750 was established in 1937 , ran from SR 257 to its junction with SR 315 . In 1997 , SR 750 was extended eastward from SR 315 , crossing Olentangy River and US 23 via Powell Road , then following Polaris Parkway around to a new eastern terminus at I @-@ 71 in the far northern end of Columbus . Ten years later , a new interchange was built for Gemini Place at I @-@ 71 , north of SR 750 . The interchange would relieve traffic in the area . The next year , SR 750 's westernmost portion was re @-@ routed to the south , onto an all new alignment that brought its western terminus in line with the intersection of SR 257 and County Road 126 ( Glick Road ) , after an expansion to the Columbus Zoo . In September 2013 , a slope stabilization project began for SR 315 , and turn lanes are currently being added for SR 315 and SR 750 's intersection .
