

= Albany , New York =

Albany (/ ˈælbəni? / AWL @-@ b? @-@ nee) is the capital of the U.S. state of New York and the seat of Albany County . Roughly 150 miles (240 km) north of New York City , Albany developed on the west bank of the Hudson River , about 10 miles (16 km) south of its confluence with the Mohawk River . The population of the City of Albany was 97 @, @ 856 according to the 2010 census . Albany constitutes the economic and cultural core of the Capital District of New York State , which comprises the Albany @-@ Schenectady @-@ Troy , NY Metropolitan Statistical Area , including the nearby cities and suburbs of Troy , Schenectady , and Saratoga Springs . With a Census @-@ estimated population of 1 @, @ 170 @, @ 483 in 2013 , the Capital District is the third most populous metropolitan region in the state and 38th in the United States .

Fortune 500 companies that have headquarters in Albany include American Express , CommerceHub , Merrill Lynch , General Electric , Verizon , Goldman Sachs , International Paper , Key Bank , f.y.e. stores , and the Environment One Corporation . In the 21st century , the Capital District has emerged as a major anchor of Tech Valley , the moniker describing the technologically @-@ focused region of eastern New York State .

This was the first European settlement in the state , settled by Dutch colonists who built Fort Nassau for fur trading in 1614 and Fort Orange in 1624 . They formed successful relations with both the Mahican and the Mohawk peoples , two major Native American nations in the region . The fur trade attracted settlers who founded a village called Beverwijck near Fort Orange . In 1664 the English took over the Dutch settlements , renaming the city as Albany , in honor of the then Duke of Albany , the future James II of England and James VII of Scotland . The city was officially chartered in 1686 under English rule . It became the capital of New York State in 1797 , following the United States gaining independence in the American Revolutionary War . Albany is one of the oldest surviving settlements of the original British thirteen colonies , and the longest continuously chartered city in the United States . Its charter is possibly the longest @-@ running instrument of municipal government in the Western Hemisphere .

During the late 18th century and throughout most of the 19th , Albany was a center of trade and transportation . It is located on the north end of the navigable Hudson River , was the original eastern terminus of the Erie Canal connecting to the Great Lakes , and was home to some of the earliest railroad systems in the world . Albany 's main exports at the time were beer , lumber , published works , and ironworks . Beginning in 1810 , Albany was one of the ten most populous cities in the United States , a distinction that it held until the 1860 census .

Albany is one of the first cities in the world to have installed public water mains , sewer lines , natural gas lines and electricity , infrastructure and utilities that attracted and supported substantial new industry to the city and surrounding area during the 19th century .

In the 20th century , the city opened one of the first commercial airports in the world , the precursor of today 's Albany International Airport . During the 1920s a powerful political machine controlled by the Democratic Party arose in the state capital , connected to politics in New York City as well . It marshalled the power of immigrants and their descendants in both cities .

The city 's skyline changed in the 1940s and 1950s with the construction of office towers around the Empire State Plaza and at the uptown campus of SUNY Albany , mainly under the direction of Governor Nelson Rockefeller . While Albany experienced a decline in its population due to urban sprawl and suburbanization , many of its historic neighborhoods were saved from destruction through the policies of Mayor Erastus Corning 2nd , the longest @-@ serving mayor of any city in the United States . In the early 21st century , Albany has experienced growth in the high @-@ technology industry , with great strides in the nanotechnology sector .

Albany has been a center of higher education for over a century , with much of the remainder of its economy dependent on state government and health care services . The city has rebounded from the urban decline of the 1970s and 1980s , with noticeable development taking place in the city 's downtown and midtown neighborhoods . Albany is known for its rich history , commerce , culture , architecture , and institutions of higher education . Albany won the All @-@ America City Award in both 1991 and 2009 .

= = = Colonial times to 1800 = = =

Albany is one of the oldest surviving European settlements from the original thirteen colonies and the longest continuously chartered city in the United States . The Hudson River area was originally inhabited by Algonquian @-@ speaking Mohican (Mahican) , who called it Pempotowwuthut @-@ Muhhcanneuw , meaning " the fireplace of the Mohican nation . " Based to the west along the Mohawk River , the Iroquoian @-@ speaking Mohawk referred to it as Sche @-@ negh @-@ ta @-@ da , or " through the pine woods , " referring to the path they took there . The Mohawk were one of the Five Nations of the Iroquois Confederacy , or Haudenosaunee , and became strong trading partners with the Dutch and English . It is likely that the Albany area was visited by European fur traders , perhaps as early as 1540 , but the extent and duration of those visits has not been determined .

Permanent European claims began when Englishman Henry Hudson , exploring for the Dutch East India Company on the Half Moon (Dutch : Halve Maen) , reached the area in 1609 , claiming it for the United Netherlands . In 1614 , Hendrick Christiaensen built Fort Nassau , a fur @-@ trading post and the first documented European structure in present @-@ day Albany . Commencement of the fur trade provoked hostility from the French colony in Canada and among the natives , all of whom vied to control the trade . In 1618 , a flood ruined the fort on Castle Island , but it was rebuilt in 1624 as Fort Orange . Both forts were named in honor of the Dutch royal House of Orange @-@ Nassau . Fort Orange and the surrounding area were incorporated as the village of Beverwijck (English : Beaver District) in 1652 . In these early decades of trade , the Dutch , Mohican and Mohawk developed relations that reflected differences among their three cultures .

When New Netherland was captured by the English in 1664 , they changed the name Beverwijck to Albany , in honor of the Duke of Albany (later James II of England and James VII of Scotland) . Duke of Albany was a Scottish title given since 1398 , generally to a younger son of the King of Scots . The name is ultimately derived from Alba , the Gaelic name for Scotland . The Dutch briefly regained Albany in August 1673 and renamed the city Willemstadt ; the English took permanent possession with the Treaty of Westminster (1674) . On November 1 , 1683 , the Province of New York was split into counties , with Albany County being the largest . At that time the county included all of present New York State north of Dutchess and Ulster Counties in addition to present @-@ day Bennington County , Vermont , theoretically stretching west to the Pacific Ocean ; the city of Albany became the county seat . Albany was formally chartered as a municipality by provincial Governor Thomas Dongan on July 22 , 1686 . The Dongan Charter was virtually identical in content to the charter awarded to the city of New York three months earlier . Dongan created Albany as a strip of land 1 mile (1 @-@ 6 km) wide and 16 miles (26 km) long . Over the years Albany would lose much of the land to the west and annex land to the north and south . At this point , Albany had a population of about 500 people .

In 1754 , representatives of seven British North American colonies met in the Stadt Huys , Albany 's city hall , for the Albany Congress ; Benjamin Franklin of Pennsylvania presented the Albany Plan of Union there , which was the first formal proposal to unite the colonies . Although it was never adopted by Parliament , it was an important precursor to the United States Constitution . The same year , the French and Indian War , the fourth in a series of wars dating back to 1689 , began ; it ended in 1763 with French defeat , resolving a situation that had been a constant threat to Albany and held back its growth . In 1775 , with the colonies in the midst of the Revolutionary War , the Stadt Huys became home to the Albany Committee of Correspondence (the political arm of the local revolutionary movement) , which took over operation of Albany 's government and eventually expanded its power to control all of Albany County . Tories and prisoners of war were often jailed in the Stadt Huys alongside common criminals . In 1776 , Albany native Philip Livingston signed the Declaration of Independence at Independence Hall in Philadelphia .

During and after the Revolutionary War , Albany County saw a great increase in real estate transactions . After Horatio Gates ' win over John Burgoyne at Saratoga in 1777 , the upper Hudson Valley was generally at peace as the war raged on elsewhere . Prosperity was soon seen all over Upstate New York . Migrants from Vermont and Connecticut began flowing in , noting the advantages of living on the Hudson and trading at Albany , while being only a few days ' sail from New York City . Albany reported a population of 3 @, @ 498 in the first national census in 1790 , an increase of almost 700 % since its chartering . In 1797 , the state capital of New York was moved permanently to Albany . From statehood to this date , the Legislature had frequently moved the state capital between Albany , Kingston , Hurley , Poughkeepsie , and the city of New York . Albany is the tenth @-@ oldest state capital in the United States , but only the second @-@ oldest state capital that is a city , after Santa Fe , New Mexico .

Albany has been a center of transportation for much of its history . In the late 18th and early 19th centuries , Albany saw development of the turnpike and by 1815 , Albany was the turnpike center of the state . Simeon De Witt developed a grid block system in 1794 , and renamed streets for birds and mammals that had previously honored British royalty . This grid was intersected by the major arterials coming out of Albany , which cut through the city at unexpected angles . The construction of the turnpike across the state , in conjunction with canal and railroad systems , made Albany the hub of transportation for pioneers going to Buffalo and the Michigan Territory in the early- and mid @-@ 19th century .

In 1807 , Robert Fulton initiated a steamboat line from New York to Albany , the first successful enterprise of its kind . By 1810 , with 10 @, @ 763 people , Albany was the 10th @-@ largest urban place in the nation . The town and village were known as " the Colonie " to the north of Albany was annexed in 1815 . In 1825 the Erie Canal was completed , forming a continuous water route from the Great Lakes to New York City . Unlike the current Barge Canal , which ends at nearby Waterford , the original Erie Canal ended at Albany ; Lock 1 was located north of Colonie Street . The Canal emptied into a 32 @-@ acre (13 ha) man @-@ made lagoon called the Albany Basin , which was Albany 's main port from 1825 until the Port of Albany @-@ Rensselaer opened in 1932 . In 1829 , while working as a professor at the Albany Academy , Joseph Henry , widely regarded as " the foremost American scientist of the 19th century " , built the first electric motor . Three years later , he discovered electromagnetic self @-@ induction (the SI unit for which is now the henry) . He went on to be the first Secretary of the Smithsonian Institution . In the 1830 and 1840 censuses , Albany was ranked as the 9th @-@ largest urban place in the nation , then back to 10th in 1850 . This was the last time the city was one of the top ten largest urban places in the nation .

Albany also has significant history with rail transport , as the location of two major regional railroad headquarters . The Delaware and Hudson Railway was headquartered in Albany at what is now the SUNY System Administration Building . In 1853 , Erastus Corning , a noted industrialist and Albany 's mayor from 1834 to 1837 , consolidated ten railroads stretching from Albany to Buffalo into the New York Central Railroad (NYCRR) , headquartered in Albany until Cornelius Vanderbilt moved it to New York City in 1867 . One of the ten companies that formed the NYCRR was the Mohawk and Hudson Railroad , which was the first railroad in the state and the first successful steam railroad running regularly scheduled service in the country .

While the key to Albany 's economic prosperity in the 19th century was transportation , industry and business also played a role . Largely thanks to the city 's Dutch and German roots , beer was one of its biggest commodities . Beverwyck Brewery , originally known as Quinn and Nolan (Nolan being mayor of Albany 1878 ? 1883) , was the last remaining brewer from that time when it closed in 1972 . The city 's location at the east end of the Erie Canal gave it unparalleled access to both raw products and a captive customer base in the west . Albany was known for its publishing houses , and to some extent , still is . Albany was second only to Boston in the number of books produced for most of the 19th century . Iron foundries in both the north and south ends of the city brought thousands of immigrants to the city . To this day , one can see many intricate wrought @-@ iron

details on older buildings . The iron industry waned by the 1890s due to increased costs associated with a newly unionized workforce and the opening of mines in the Mesabi Range in Minnesota .

Albany 's other major exports during the 18th and 19th centuries were furs , wheat , meat , and lumber ; by 1865 , there were almost 4 @, @ 000 saw mills in the Albany area and the Albany Lumber District was the largest lumber market in the nation . The city was also home to a number of banks . The Bank of Albany (1792 ? 1861) was the second chartered bank in New York . The city was the original home of the Albank (founded in 1820 as the Albany Savings Bank) , KeyBank (founded in 1825 as the Commercial Bank of Albany) , and Norstar Bank (founded as the State Bank of Albany in 1803) . American Express was originally founded in Albany in 1850 as an express mail business . In 1871 , the northwestern portion of Albany ? west from Magazine Street ? was annexed to the neighboring town of Guilderland after the town of Watervliet refused annexation of said territory . In return for this loss , portions of Bethlehem and Watervliet were added to Albany . Part of the land annexed to Guilderland was ceded back to Albany in 1910 , setting up the current western border .

Albany opened one of the first commercial airports in the world , and the first municipal airport in the United States , in 1908 . Originally located on a polo field on Loudon Road , it moved to Westerlo Island in 1909 and remained there until 1928 . The Albany Municipal Airport ? jointly owned by the city and county ? was moved to its current location in Colonie in 1928 . In 1960 , the mayor sold the city 's stake in the airport to the county , citing budget issues . It was known from then on as Albany County Airport until a massive upgrade and modernization project between 1996 and 1998 , when it was rechristened Albany International Airport . By 1916 Albany 's northern and southern borders reached their modern courses ; Westerlo Island , to the south , became the second @-@ to @-@ last annexation , which occurred in 1926 .

= = = 1942 to present day = = =

Erastus Corning 2nd , arguably Albany 's most notable mayor (and great @-@ grandson of the former mayor of the same name) , was elected in 1941 . Although he was one of the longest @-@ serving mayors of any city in United States history (1942 until his death in 1983) , one historian describes Corning 's tenure as " long on years , short on accomplishments . " Grondahl cited Corning 's preference for maintaining the status quo as a factor that held back potential progress during his tenure . While Corning brought stability to the office of mayor , it is said that even those who admire him greatly cannot come up with a sizable list of " major concrete Corning achievements . " Corning is given credit for saving ? albeit somewhat unintentionally ? much of Albany 's historic architecture .

During the 1950s and 1960s , a time when federal aid for urban renewal was plentiful , Albany did not have growth in its economy or infrastructure . It lost more than 20 percent of its population during the Corning years , as people moved to newer housing in the suburbs , followed by most of the downtown businesses moving there as well . While cities across the country grappled with similar issues , the problems were magnified in Albany : interference from the Democratic political machine hindered progress considerably .

Governor Nelson Rockefeller (1959 ? 1973) (R) tried to stimulate the city with grandiose , monumental architecture and large , government @-@ sponsored building projects ; he drove construction of the Empire State Plaza , SUNY Albany 's uptown campus , and much of the W. Averell Harriman State Office Building Campus . Albany County Republican Chairman Joseph C. Frangella once quipped , " Governor Rockefeller was the best mayor Albany ever had . " Corning , though opposed to the project , was responsible for negotiating the payment plan for the Empire State Plaza . Rockefeller did not want to be limited by the Legislature 's power of the purse , so Corning devised a plan to have the county pay for the construction and have the state sign a lease @-@ ownership agreement . The state paid off the bonds until 2004 . It was Rockefeller 's only viable option , and he agreed . Due to the clout Corning gained from the situation , he was able to get the State Museum , a convention center , and a restaurant , back in the plans ? ideas which Rockefeller had originally vetoed . The county gained \$ 35 million in fees and the city received \$ 13

million for lost tax revenue . Having the state offices located in the city enabled it to keep good jobs .

Another major project of the 1960s and 1970s was Interstate 787 and the South Mall Arterial . Construction began in the early 1960s . One of the project 's main results , since regretted , was separating the city from the Hudson River , its source of development . Corning has been described as shortsighted with respect to use of the waterfront , as he could have used his influence to change the location of I @-@ 787 , which now cuts the city off from " its whole raison d'être " . Much of the original plan never came to fruition , however : Rockefeller had wanted the South Mall Arterial to pass through the Empire State Plaza . The project would have required an underground trumpet interchange below Washington Park , connecting to the (eventually cancelled) Mid @-@ Crosstown Arterial . To this day , evidence of the original plan is still visible . In 1967 the hamlet of Karlsfeld was the last annexation by the city , taken from the Town of Bethlehem .

When Corning died in 1983 , Thomas Whalen assumed the mayorship and was reelected twice . He encouraged redevelopment of historic structures and helped attract federal dollars earmarked for that purpose . What Corning had saved from destruction , Whalen refurbished for continued and new uses . The Mayor 's Office of Special Events was created in an effort to increase the number of festivals and artistic events in the city , including a year @-@ long Dongan Charter tricentennial celebration in 1986 . Whalen is credited for an " unparalleled cycle of commercial investment and development " in Albany due to his " aggressive business development programs " .

Prior to the recession of the 1990s , downtown Albany was home to four Fortune 500 companies . After the death of Corning and the retirement of Congressman Sam Stratton , the political environment changes . Long @-@ term office holders became rare in the 1980s . Local media began following the drama surrounding county politics (specifically that of the newly created county executive position) ; the loss of Corning (and eventually the machine) led to a lack of interest in city politics . The election of Gerald Jennings was a surprise , and he served as Mayor from 1994 until his retirement at the end of 2013 . His tenure essentially ended the political machine that had been in place since the 1920s .

During the 1990s , the State Legislature approved the \$ 234 million " Albany Plan " , " a building and renovation project [that] was the most ambitious building project to affect the area since the Rockefeller era . " Under the Albany Plan , renovation and new building projects were initiated around the downtown area . Many state workers were relocated from the Harriman State Office Campus to downtown , helping its retail businesses and vitality . During the first decade of the 21st century , progress was made on a long @-@ discussed and controversial Albany Convention Center . As of August 2010 , the Albany Convention Center Authority (authorized by the state legislature) had already purchased 75 % of the land needed to build the downtown project .

= = Geography = =

Albany is located about 150 miles (240 km) north of New York City on the Hudson River . It has a total area of 21 @. @ 8 square miles (56 km²) , of which 21 @. @ 4 square miles (55 km²) is land and 0 @. @ 4 square miles (1 @. @ 0 km²) (1 @. @ 8 %) is water . The city is bordered on the north by the town of Colonie (along with the village of Menands) , on the west by the town of Guilderland , and on the south by the town of Bethlehem . The Hudson River represents the city 's eastern border . Patroon Creek , along the northern border , and the Normans Kill , along the southern border , are the two major streams in the city . The former Foxes Creek , Beaver Kill , and Rутten Kill still exist , but were diverted underground in the 19th century . There are four lakes within city limits : Buckingham Lake ; Rensselaer Lake at the mouth of the Patroon Creek ; Tivoli Lake , which was formed as a reservoir and once connected to the Patroon Creek ; and Washington Park Lake , which was formed by damming the Beaver Kill .

The highest natural point in Albany is a USGS benchmark near the Loudonville Reservoir off Birch Hill Road , at 378 feet (115 m) above sea level . The lowest point is sea level at the Hudson River (the average water elevation is 2 feet (0 @. @ 61 m)) , which is still technically an estuary at Albany and is affected by the Atlantic tide . The interior of Albany consists of rolling hills which were once

part of the Albany Pine Bush , an area of pitch pine and scrub oak , and has arid , sandy soil that is a remnant of the ancient Lake Albany . Due to development , the Pine Bush has shrunk from an original 25 @, @ 000 to 6 @, @ 000 acres (10 @, @ 100 to 2 @, @ 400 ha) today . A preserve was set up by the State Legislature in 1988 and is located on the western edge of the city , spilling into Guilderland and Colonie ; it is the only sizable inland pine barrens sand dune ecosystem in the United States , and is home to many endangered species , including the Karner Blue butterfly .

== Climate ==

Albany is located in the humid continental climate zone (Köppen climate classification : Dfa) , and has cold , snowy winters , and hot , wet summers ; the city experiences four distinct seasons . Albany is located in plant hardiness zone 6a near downtown and along the shore of the Hudson and 5b at its western end . Albany receives 39 @. @ 4 inches (1 @, @ 000 mm) of rain per year , with 138 days of at least 0 @. @ 01 in (0 @. @ 25 mm) of precipitation each year . Snowfall is significant , totaling 59 @. @ 1 inches (150 cm) annually , but with less accumulation than the lake @-@ effect areas to the north and west , as it is further from Lake Ontario . However , Albany is close enough to the Atlantic coast to receive heavy snow from Nor 'easters and the city occasionally receives Alberta clippers . Winters can be very cold with fluctuating conditions ; temperatures drop to 0 ° F (? 18 ° C) or below on nine nights per annum . Summers in Albany can contain stretches of excessive heat and humidity , with temperatures of 90 ° F (32 ° C) or hotter on nine days per year . Record temperature extremes range from ? 28 ° F (? 33 ° C) , on January 19 , 1971 , to 104 ° F (40 ° C) on July 4 , 1911 .

== Crime ==

New York has an effective statewide crime rate of 385 / 100 @, @ 000 people as of 2009 . Albany 's violent crime rate is nearly on a par with Rochester (1028 violent crimes / 100 @, @ 000 population vs 968 / 100 @, @ 000 in Rochester) and much lower than Buffalo at 1514 / 100 @, @ 000 . By comparison , New York City 's violent crime rate was 639 / 100 @, @ 000 in 2013 .

== Neighborhoods ==

Albany 's neighborhoods are varied demographically , geographically , architecturally , and historically . Downtown Albany is the city 's oldest neighborhood , centered on State Street , one of Albany 's oldest streets and its original main street . Today downtown consists mostly of office buildings inhabited by state agencies , though a recent push to bring in permanent residents has led to proposed apartments and condominiums . North and south of Downtown are old residential communities often consisting of row houses . North is Sheridan Hollow , Arbor Hill , and North Albany ; to the south is the super @-@ neighborhood of the South End , which consists of a multitude of smaller neighborhoods including the Mansion District , the Pastures , Kenwood , Groesbeckville , Delaware Avenue , and Krank Park . These neighborhoods tend to have more minorities and lower @-@ income residents than the western , more suburbanized sections of the city .

West of Downtown is the Empire State Plaza , which effectively cuts Downtown off from the gentrified neighborhoods of Center Square , Hudson / Park , Lark Street , and Washington Park . Collectively referred to as mid @-@ town , these neighborhoods are often compared to New York City 's Greenwich Village for their eclectic mix of residential and commercial uses , including bars , night clubs , restaurants , and unique stores . Albany 's gay culture is vibrant in this area . Nearby Park South , a nine @-@ block area surrounding New Scotland Avenue is undergoing an urban renewal as existing housing units are removed or renovated and new office , commercial , and

apartment buildings are added . New construction includes expansion of Albany Medical Center , one of the largest employers in Albany . Nearby is University Heights , a united campus consisting of Albany Medical Center Hospital , Albany Medical College , Albany Law School , Albany College of Pharmacy , and the Sage College of Albany .

Western neighborhoods , such as Pine Hills , Delaware Avenue , Whitehall , Helderberg , New Scotland , and Beverwyck , tend to have larger lots and more suburban surroundings . The eastern section of Pine Hills is a popular living choice for college students due to its proximity to the campuses of the College of Saint Rose and University at Albany . Further west , the neighborhoods become more affluent and are dominated almost exclusively by single @-@ family dwellings . These neighborhoods , such as Melrose , Western Pine Hills , New Albany , Eagle Hill , Westland Park , Campus , and Buckingham Pond more closely resemble neighboring areas of the suburban towns than they do the downtown parts of the city . Further west is the W. Averell Harriman State Office Campus and the University at Albany 's main campus .

= = = Parks and recreation = = =

Albany has more than 60 public parks and recreation areas . Washington Park was organized as the Middle Public Square in 1806 . Its current location has been public property since the Dongan Charter of 1686 gave the city title to all property not privately owned . Washington Park was designed by John Bogart and John Cuyler in 1870 , and opened for public use the following year . The original lake house , designed by Frederick W. Brown , was added in 1876 . The park had previously been used as a cemetery ; its graves were moved to Albany Rural Cemetery . Washington Park is a popular place to exercise and play sports ; skate during the winter ; people @-@ watch during Tulip Fest ; and attend plays at the amphitheater during the summer .

Other parks in Albany include Lincoln Park , Buckingham Park , the Corning Preserve , and the Pine Bush . Lincoln Park , southwest of the Empire State Plaza , was organized in 1886 and was originally known as Beaver Park . Today , the park has a pool that is open during the summer months . Buckingham Lake Park is between Manning Boulevard and Route 85 in the Buckingham Pond neighborhood ; it contains a pond with fountains , a footpath , a playground , and picnic tables . The Albany Riverfront Park at the Corning Preserve has an 800 @-@ seat amphitheatre that hosts events in non @-@ winter months , most notably the Alive at 5 summer concert series . The Preserve 's visitors center details the ecology of the Hudson River and the local environment . The park has a bike trail and boat launch and was effectively separated from downtown by Interstate 787 until the opening of the Hudson River Way in 2002 .

Other public parks include Westland Hill Park , Hoffman Park , Beverwyck Park , Ridgefield Park , and Liberty Park , today a small circular grassy patch in downtown on Hudson Avenue , which is Albany 's oldest park . The municipal golf course , New Course at Albany , was constructed in 1929 as the Albany Municipal Golf Course , later renamed the Capital Hills at Albany , and remodeled in 1991 .

= = = Architecture = = =

The Empire State Plaza , a collection of state agency office buildings , dominates almost any view of Albany . Built between 1965 and 1978 at the hand of Governor Nelson A. Rockefeller and architect Wallace Harrison , the complex is a powerful example of late American modern architecture and remains a controversial building project both for displacing city residents and for its architectural style . The most recognizable aspect of the complex is the Erastus Corning Tower , the tallest building in New York outside of New York City . Juxtaposed at the north end of the Plaza is the 19th @-@ century New York State Capitol , the seat of the New York State Legislature and the home of the Governor 's office .

Albany 's initial architecture incorporated many Dutch influences , followed soon after by those of the English . Quackenbush House , a Dutch Colonial brick mansion , was built c . 1736 ; Schuyler Mansion , a Georgian @-@ style mansion , was built in 1765 ; and the oldest building currently

standing in Albany is the 1728 Van Ostrande @-@ Radliff House at 48 Hudson Avenue . Albany 's housing varies greatly , with mostly row houses in the older sections of town , closer to the river . Housing type quickly changes as one travels westward , beginning with two @-@ family homes of the late 19th century , and one @-@ family homes built after World War II in the western end of the city .

Albany City Hall , designed by Henry Hobson Richardson , was opened in 1883 . The New York State Capitol was opened in 1899 (after 32 years of construction) at a cost of \$ 25 million , making it the most expensive government building at the time . Albany 's Union Station , a major Beaux @-@ Arts design , was under construction at the same time ; it opened in 1900 . In 1912 , the Beaux @-@ Arts styled New York State Department of Education Building opened on Washington Avenue near the Capitol . It has a classical exterior , which features a block @-@ long white marble colonnade . The 1920s brought the Art Deco movement , which is illustrated by the Home Savings Bank Building (1927) on North Pearl Street and the Alfred E. Smith Building (1930) on South Swan Street , two of Albany 's tallest high @-@ rises .

Architecture from the 1960s and 1970s is well represented in the city , especially at the W. Averell Harriman State Office Building Campus (1950s and 1960s) and on the uptown campus of the University at Albany (1962 ? 1971) . The state office campus was planned in the 1950s by governor W. Averell Harriman to offer more parking and easier access for state employees . The uptown SUNY campus was built in the 1960s under Governor Rockefeller on the site of the city @-@ owned Albany Country Club . Straying from the popular open campus layout , SUNY Albany has a centralized building layout with administrative and classroom buildings at center surrounded by four student housing towers . The design called for much use of concrete and glass , and the style has slender , round @-@ topped columns and pillars reminiscent of those at Lincoln Center in New York City .

Downtown has seen a revival in recent decades , often considered to have begun with Norstar Bank 's renovation of the former Union Station as its corporate headquarters in 1986 . The Times Union Center (TU Center) was originally slated for suburban Colonie , but was instead built downtown and opened in 1990 . Other development in downtown includes the construction of the State Dormitory Authority headquarters at 515 Broadway (1998) ; the State Department of Environmental Conservation building , with its iconic green dome , at 625 Broadway (2001) ; the State Comptroller headquarters on State Street (2001) ; the Hudson River Way (2002) , a pedestrian bridge connecting Broadway to the Corning Preserve ; and 677 Broadway (2005) , " the first privately owned downtown office building in a generation " .

= = Demographics = =

= = = City of immigrants = = =

Historically , Albany 's population has been mixed . First dominated by the Dutch and Germans , it was overtaken by the English in the early 19th century . Irish immigrants soon outnumbered most other ethnicities by the mid @-@ 19th century , and were followed by Italians and Poles . The mid @-@ to @-@ late 20th century saw a rise in the African @-@ American population . As historian (and Albany Assemblyman) John McEneny puts it ,

Dutch and Yankee , German and Irish , Polish and Italian , black and Chinese ? over the centuries Albany 's heritage has reflected a succession of immigrant nationalities . Its streets have echoed with a dozen languages , its neighborhoods adapting to the distinctive life @-@ style and changing economic fortunes of each new group .

Until after the Revolution , Albany 's population consisted mostly of ethnic Dutch descendants . Settlers moving in from New England tipped the balance toward British ethnicity in the early 19th century . Jobs on the turnpikes , canals , and railroads brought in floods of Irish immigrants in the early 19th century , especially in the 1840s during the Irish potato famine , solidifying the city 's Irish base . Albany elected its first Irish Catholic mayor (Michael Nolan) two years before Boston did .

Polish and Italian immigrants began arriving in Albany in the wave of immigration in the latter part of the 19th century . Their numbers were smaller than in many other eastern cities mainly because most had found manufacturing jobs at General Electric in Schenectady . The Jewish community , with Sephardic Jewish members part of the Beverwijck community , also saw a rise in population during the late 19th century , when many Ashkenazi Jews immigrated from eastern Europe . In that period , there was also an influx of Chinese and east Asian immigrants , who settled in the downtown section of the city . Many of their descendants have since moved to suburban areas . Immigration all but halted after the Immigration Act of 1924 . Albany was also a destination of internal migration , as many African Americans moved north in their Great Migration from the rural South before and after World War I to fill industrial positions . As a percentage , the black community has grown substantially since then : African Americans made up 3 percent of the population in 1950 , 6 percent in 1960 , 12 percent in 1970 , and 30 percent in 2010 . The change in proportion is related mostly to middle @-@ class white families moving to the suburbs , and black families remaining within city limits during the same time period .

Since 2007 there has been an ever growing number of Burmese refugees , mostly of the Karen ethnicity , with an estimate 5 @, @ 000 now residing in Albany .

Albany 's geographic situation ? roughly equidistant between New York City to the south and Montreal to the north , as well as approximately 4 @.@ 5 hours east of Buffalo , and 2 @.@ 5 hours west of Boston ? makes it a convenient stop for nationally touring artists and acts . The Palace Theatre and The Egg provide mid @-@ sized forums for music , theater , and spoken word performances , with the Capital Repertory Theatre filling the small @-@ sized niche . The TU Center serves as the city 's largest musical venue for nationally and internationally prominent bands , and hosts trade shows , sporting events , and other large @-@ scale community gatherings . While some praise the cultural contributions of Albany and the greater Capital District , others suggest that the city has a " cultural identity crisis " due to its massive geography and the need for a car (and driving time) to experience most of what the area has to offer , a necessity not seen in larger metropolitan areas like New York and Boston .

In recent years , the city 's government has invested resources to cultivate venues and neighborhoods that attract after @-@ hours business . Madison Avenue , Pearl Street , Delaware Avenue and Lark Street serve as the most active entertainment areas in the city . Many restaurants , clubs , and bars have opened since the mid @-@ 1990s , revitalizing numerous areas that had once been abandoned ; various establishments have reclaimed old row houses , businesses , and even a pump station . The bar scene generally incorporates three main strips . The downtown scene is focused on Pearl Street , stretching about two blocks . Lastly , the midtown strip , with several bars located on Western and Madison Avenues , centers around the campuses of the College of Saint Rose and SUNY Albany 's downtown campus . The midtown strip generally draws a younger crowd , as it is popular to the local college students .

However , in an effort to keep Dongan in effect , the new charter was applied strictly as an amendment to Dongan , meaning Dongan is technically still in effect , giving Albany the distinction of having the oldest active city charter in the United States and " arguably the longest @-@ running instrument of municipal government in the Western Hemisphere . " The mayor , who is elected every four years , heads the executive branch of city government . The current mayor , Kathy Sheehan , was first elected in 2013 . = = = Politics = = =

Albany 's politics have been dominated by the Democratic Party since the 1920s ; Daniel (Uncle Dan) O 'Connell established a political machine in the city with the election of William Stormont Hackett as mayor in 1922 . Prior to that , William (Billy) Barnes had set up a Republican machine in the 1890s . Barnes ' success is attributed to the fact that he owned two newspapers in Albany and that he was the grandson of Thurlow Weed , the influential newspaper publisher and political boss . O 'Connell 's organization overcame Barnes ' in 1922 and survived well into the 1980s (even after his death) , as the machine put forth candidates for whom the electorate dutifully voted . In many instances , votes were outright bought ; it was not uncommon for the machine to " buy poor folks ' loyalty and trust with a fiver " .

Gerald Jennings ' upset in the 1993 Democratic mayoral primary over Harold Joyce , who had the Democratic Party 's formal endorsement and had only recently been its county chairman , is often

cited as the end of the O'Connell era in Albany . Albany continues to be dominated by the Democratic party as enrollment in the city was 38 %, 862 in 2009 compared to Republican enrollment of 3 %, 487 .
