

= H @-@ 33 ( Michigan county highway ) =

H @-@ 33 is a county @-@ designated highway in the Upper Peninsula of the U.S. state of Michigan between Gould City and McMillan that was previously M @-@ 135 , a former state trunkline highway . The roadway follows Manistique Lakes Road from Gould City at a junction with US Highway 2 ( US 2 ) near Lake Michigan north to M @-@ 28 near McMillan . The northern section of the highway is also called County Road 135 ( CR 135 ) in Luce County .

From 1929 until 1960 , the road was part of the state highway system as M @-@ 135 . The northern end of the highway always contained a section that ran concurrently with M @-@ 98 , another state highway in the area . For a period in the 1950s , M @-@ 135 had a different northern terminus separate from M @-@ 98 's endpoint . A few years before both highways were removed from the highway system , M @-@ 135 was moved to use M @-@ 98 's terminus with M @-@ 28 . Since the 1970s , M @-@ 135 has been a part of the county @-@ designated highway system and assigned the number H @-@ 33 , a moniker it has borne since .

= = Route description = =

H @-@ 33 begins at an intersection with US 2 just west of Gould City . From there the route travels due north through woodlands on Manistique Lakes Road , passing by Mitten and South Manistique lakes . The road crosses Norton and Strom creeks near South Manistique Lake before entering the community of Curtis . In that town , H @-@ 33 intersects the eastern end of H @-@ 42 . North of Curtis , H @-@ 33 passes Manistique Lake as the road crosses the Mackinac ? Luce county line . North of the line , H @-@ 33 has also been designated CR 135 by the Luce County Road Commission .

Continuing north , the roadway enters the community of Helmer where it meets a junction with the eastern terminus of the eastern H @-@ 44 ( CR 98 , Ten Curves Road ) near North Manistique Lake . The roadway also crosses Locke Creek , which flows into that lake . After H @-@ 33 leaves Helmer , it continues northward to a junction with North Road Lake Road ( CR 438 ) and Sampsell Road ( CR 417 ) . Manistique Lakes Road turns to the east , replacing North Round Lake Road , and H @-@ 33 follows suit . The road continues to a junction with M @-@ 28 just south of McMillan near East Lake . There H @-@ 33 terminates near farms and several small business .

= = History = =

In 1929 , M @-@ 135 was designated , creating the concurrency along the last several miles of M @-@ 98 . In late 1949 or early 1950 , M @-@ 28 was realigned to take an angled route southeasterly out of McMillan . The east ? west section of the previous M @-@ 28 routing was added to M @-@ 98 while the north ? south segment was added to M @-@ 135 . By the middle of 1958 , M @-@ 135 was shifted to follow M @-@ 98 , removing the roadway section added to its routing previously ; this change made M @-@ 98 and M @-@ 135 concurrent north of Helmer all the way to M @-@ 28 once again . M @-@ 135 was removed from the state trunkline system in late 1960 or early 1961 , and the designation was decommissioned at that time . The M @-@ 135 designation has not been reused since . The routing was then assigned as County Road H @-@ 33 after October 5 , 1970 , The road has retained that designation ever since .
