

= Varahi =

Varahi (Sanskrit : वराह , वरह) is one of the Matrikas , a group of seven or eight mother goddesses in the Hindu religion . With the head of a sow , Varahi is the shakti (feminine energy , or sometimes , consort) of Varaha , the boar Avatar of the god Vishnu . In Nepal , she is called Barahi .

Varahi is worshipped by all the three major schools of Hinduism : Shaktism (goddess worship) ; Shaivism (followers of the god Shiva) ; and Vaishnavism (devotion to Vishnu) . She is usually worshipped at night , and according to secretive Vamamarga Tantric practices . The Buddhist goddesses Vajravārāhī and Marīchi are believed to have their origins in the Hindu goddess Varahi .

= = Hindu legends = =

According to the Shumbha @-@ Nishumbha myth of the Devi Mahatmya from the Markandeya Purana religious texts , the Matrikas goddesses appear as shaktis (feminine powers) from the bodies of the gods . The scriptures say that Varahi was created from Varaha . She has a boar form , wields a chakra (discus) , and fights with a sword . After the battle described in the myth , the Matrikas dance ? drunk on their victim 's blood .

According to a latter episode of the Devi Mahatmya that deals with the killing of the demon Raktabija , the warrior @-@ goddess Durga creates the Matrikas from herself and with their help slaughters the demon army . When the demon Shumbha challenges Durga to single combat , she absorbs the Matrikas into herself . In the Vamana Purana , the Matrikas arise from different parts of the Divine Mother Chandika ; Varahi arises from Chandika 's back .

The Markandeya Purana praises Varahi as a granter of boons and the regent of the northern direction , in a hymn where the Matrikas are declared as the protectors of the directions . In another instance in the same Purana , she is described as riding a buffalo . The Devi Bhagavata Purana says Varahi , with the other Matrikas , is created by the Supreme Mother . The Mother promises the gods that the Matrikas will fight demons when needed . In the Raktabija episode , Varahi is described as having a boar form , fighting demons with her tusks while seated on a preta (corpse) .

In the Varaha Purana , the story of Raktabija is retold , but here each of Matrikas appears from the body of another Matrika . Varahi appears seated on Shesha @-@ naga (the serpent on which the god Vishnu sleeps) from the posterior of Vaishnavi , the Shakti of Vishnu . Varahi is said to represent the vice of envy (asuya) in the same Purana .

The Matsya Purana tells a different story of the origin of Varahi . Varahi , with other Matrikas , is created by Shiva to help him kill the demon Andhakasura , who has the ability ? like Raktabija ? to regenerate from his dripping blood .

= = Associations = =

The Devi Purana paradoxically calls Varahi the mother of Varaha (Varahajanani) as well as Kritantatanusambhava , who emerges from Kritantatanu . Kritantatanu means " death personified " and could be an attribute of Varaha or a direct reference to Yama , the god of death . Elsewhere in the scripture , she is called Vaivasvati and described as engrossed in drinking from a skull @-@ cup . Pal theorizes that the name " Vaivasvati " means that Varahi is clearly identified with Yami , the shakti of Yama , who is also known as Vivasvan . Moreover , Varahi holds a staff and rides a buffalo , both of which are attributes of Yama ; all Matrikas are described as assuming the form of their creator @-@ gods .

In the context of the Matrikas ' association to the Sanskrit alphabet , Varahi is said to govern the pa varga of consonants , namely pa , pha , ba , bha , ma . The Lalita Sahasranama , a collection of 1 @, @ 000 names of the Divine Mother , calls Varahi the destroyer of demon Visukaran . In another context , Varahi , as Panchami , is identified with the wife of Sadashiva , the fifth Brahma , responsible for the regeneration of the Universe . The other Panch Brahmas (" five Brahmas ") are

the gods Brahma , Govinda , Rudra , and Isvara , who are in charge of creation , protection , destruction , and dissolution respectively . In yet another context , Varahi is called Kaivalyarupini , the bestower of Kaivalya (" detachment of the soul from matter or further transmigrations ") ? the final form of mukti (salvation) . The Matrikas are also believed to reside in a person 's body . Varahi is described as residing in a person 's navel , and governs the manipura , svadhisthana , and muladhara chakras .

Haripriya Rangarajan , in her book Images of Varahi ? An Iconographic Study , suggests that Varahi is none other than Vak devi , the goddess of speech .

= = Iconography = =

Varahi 's iconography is described in the Matsya Purana and agamas like the Purva @-@ karnagama and the Rupamandana . The Tantric text Varahi Tantra mentions that Varahi has five forms of Varahi : Svapna Varahi , Canda Varahi , Mahi Varahi (Bhairavi) , Krcca Varahi , and Matsya Varahi . The Matrikas , as shaktis of gods , are described to resemble those gods in form , jewellery , and mount , but Varahi inherits only the boar @-@ face of Varaha .

Varahi is usually depicted with her characteristic sow face on a human body with a black complexion comparable to a storm cloud . The scholar Donaldson informs us that the association of a sow and a woman is seen derogatory for the latter , but the association is also used in curses to protect " land from invaders , new rulers , and trespassers " . Rarely , she is described as holding the Earth on her tusks , similar to Varaha . She wears the kara??a muku?a , a conical basket @-@ shaped crown . Varahi can be depicted as standing , seated , or dancing . Varahi is often depicted pot @-@ bellied and with full breasts , while most all other Matrikas ? except Chamunda ? are depicted as slender and beautiful . One belief suggests that since Varahi is identified with the Yoganidra of Vishnu , who holds the universe in her womb (Bhugarbha Paranmesvari Jagaddhatri) , that she should be shown as pot @-@ bellied . Another theory suggests that the pot @-@ belly reflects a " maternal aspect " , which Donaldson describes as " curious " because Varahi and Chamunda " best exemplify " the terrible aspect of the Divine Mother . A notable exception is the depiction of Varahi as human @-@ faced and slender at the sixth @-@ century Rameshvara cave (Cave 21) , the Ellora Caves . She is depicted here as part of the group of seven Matrikas . A third eye and / or a crescent moon is described to be on her forehead .

Varahi may be two , four , or six @-@ armed . The Matsya Purana , the Purva @-@ karnagama , and the Rupamandana mention a four @-@ armed form . The Rupamandana says she carries a ghanta (bell) , a chamara (a yak 's tail) , a chakra (discus) , and a gada (mace) . The Matsya Purana omits the ghanta and does not mention the fourth weapon . The Purva @-@ Karanagama mentions that she holds the Sharanga (the bow of Vishnu) , the hala (plough) , and the musula (pestle) . The fourth hand is held in the Abhaya (" protection gesture ") or the Varada Mudra (" blessing gesture ") . The Devi Purana mentions her attributes as being sword , iron club , and noose . Another description says her hair is adorned with a garland with red flowers . She holds a staff and drinking skull @-@ cup (kapala) . The Varahini @-@ nigrastaka @-@ stotra describes her attributes as a plough , a pestle , a skull @-@ cup , and the abhaya mudra . The Vamana Purana describes her seated on Shesha while holding a chakra and a mace . The Agni Purana describes her holding the gada , shankha , sword , and ankusha (goad) . The Mantramahodadhi mentions she carries a sword , shield , noose , and goad . In Vaishnava images , since she is associated with Vishnu , Varahi may be depicted holding all four attributes of Vishnu ? Shankha (conch) , chakra , Gada , and Padma (lotus) . The Aparajitapriccha describes her holding a rosary , a khatvanga (a club with a skull) , a bell , and a kamandalu (water @-@ pot) .

The Vishnudharmottara Purana describes a six @-@ armed Varahi , holding a danda (staff of punishment) , khetaka (shield) , khadga (sword) , and pasha (noose) in four hands and the two remaining hands being held in Abhaya and Varada Mudra (" blessing gesture ") . She also holds a shakti and hala (plough) . Such a Varahi sculpture is found at Abanesi , depicted with the dancing Shiva . She may also be depicted holding a child sitting on her lap , like Matrikas are often depicted .

Matsya Varahi is depicted as two @-@ armed , with spiral @-@ coiled hair and holding a fish (matsya) and a kapala . The fish and wine @-@ cup kapala are special characteristics of Tantric Shakta images of Varahi , the fish being exclusive to Tantric descriptions .

The vahana (vehicle) of Varahi is usually described as a buffalo (Mahisha) . In Vaishnava and Shakta images , she is depicted as either standing or seated on a lotus pitha (pedestral) or on her vahana (a buffalo) or on its head , or on a boar , the serpent Shesha , a lion , or on Garuda (the eagle @-@ man vahana of Vishnu) . In Tantric Shakta images , the vahana may be specifically a she @-@ buffalo or a corpse (pretasana) . An elephant may be depicted as her vahana . The goddess is also described as riding on her horse , Jambini . Garuda may be depicted as her attendant . She may also be depicted seated under a kalpaka tree .

When depicted as part of the Sapta @-@ Matrika group (" seven mothers ") , Varahi is always in the fifth position in the row of Matrikas , and thus is called Panchami (" fifth ") . The goddesses are flanked by Virabhadra (Shiva 's fierce form) and Ganesha (Shiva 's elephant @-@ headed son and wisdom god) .

= = Worship = =

For worship and temples of Varahi as part of the Sapta @-@ Matrika group , see Matrika Worship . Varahi is worshipped by Shaivas , Vaishnavas , and Shaktas . Varahi is worshipped in the Sapta @-@ Matrikas group (" seven mothers ") , which are venerated in Shaktism , as well as associated with Shiva .

Varahi is a ratri devata (night goddess) and is sometimes called Dhurma Varahi (" dark Varahi ") and Dhumavati (" goddess of darkness ") . According to Tantra , Varahi should be worshipped after sunset and before sunrise . Parsurama Kalpasutra explicitly states that the time of worship is the middle of the night . Shaktas worship Varahi by secretive Vamamarga Tantric practices , which are particularly associated with worship by panchamakara ? wine , fish , grain , meat , and ritual copulation . These practices are observed in the Kalaratri temple on the bank of the Ganges , where worship is offered to Varahi only in the night ; the shrine is closed during the day . Shaktas consider Varahi to be a manifestation of the goddess Lalita Tripurasundari or as " Dandanayika " or " Dandanatha " ? the commander @-@ general of Lalita 's army . The Sri Vidya tradition of Shaktism elevates Varahi to the status of Para Vidya (" transcendental knowledge ") . The Devi mahatmya suggests evoking Varahi for longevity . Thirty yantras and thirty mantras are prescribed for the worship of Varahi and to acquire siddhis by her favour . This , according to the scholar Rath , indicates her power . Some texts detailing her iconography compare her to the Supreme Shakti .

Prayers dedicated to Varahi include Varahi Anugrahashtakam , for her blessing , and Varahi Nigrahashtakam , for destruction of enemies ; both are composed in Tamil .

= = In Buddhism = =

Vajravarahi (" vajra @-@ hog " or Buddhist Varahi) , the most common form of the Buddhist goddess Vajrayogini , originated from the Hindu Varahi . Vajravarahi is also known as Varahi in Buddhism . Vajravarahi inherits the fierce character and wrath of Varahi . Both are invoked to destroy enemies . The sow head of Varahi is also seen as the right @-@ side head attached to the main head in one of Vajravarahi 's most common forms . The hog head is described in Tibetan scriptures to represent the sublimation of ignorance (" moha ") . According to Elizabeth English , Varahi enters the Buddhist pantheon through the yogatantras . In the Sarvatathagatatattvasamgaraha , Varahi is described initially as a Shaiva sarvamatr (" all @-@ mother ") located in hell , who is converted to the Buddhist mandala by Vajrapani , assuming the name Vajramukhi (" vajra @-@ face ") . Varahi also enters the Heruka @-@ mandala as an attendant goddess . Varahi , along with Varttali (another form of Varahi) , appears as the hog @-@ faced attendant of Marichi , who also has a sow face ? which may be an effect of the Hindu Varahi .
