

= New York State Route 186 =

New York State Route 186 (NY 186) is a short east ? west state highway in northern New York in the United States . The highway is located entirely within the town of Harrietstown in the southwest part of Franklin County . The western terminus is at NY 30 and the eastern terminus is at NY 86 . NY 186 lies south of , and serves , the Adirondack Regional Airport . The current alignment of NY 186 was designated in 1989 to follow a former routing of NY 86 .

= = Route description = =

In the west , NY 186 begins at NY 30 in Harrietstown , near the eastern bank of Lake Clear . Known as Lake Clear Road , NY 186 heads east @-@ northeastward , crossing a pair of train tracks and later a creek . Situated within the forested terrain of the Adirondack State Park , the highway passes to the south of , and serves , the Adirondack Regional Airport . South of the airport NY 186 intersects several local roads . The highway turns more towards the northeast upon passing the airport , and proceeds uneventfully . Subsequent to turning towards the east , NY 186 terminates at NY 86 , still within Harrietstown .

= = History = =

The modern routing of NY 186 was originally designated as part of NY 10 when the first set of posted routes in New York were assigned in 1924 . In the 1930 renumbering , NY 10 was rerouted east of Lake Clear to follow modern NY 30 north to the Canadian border . The former routing of NY 10 between Lake Clear and Harrietstown was incorporated into NY 86 , a new route extending from Lake Clear to Jay . NY 86 remained on this alignment until March 28 , 1989 , when the NY 192 designation was deleted . NY 86 was then rerouted to follow the former routing of NY 192 northwestward to Paul Smiths . The Lake Clear ? Harrietstown roadway , vacated by NY 86 , was redesignated as NY 186 .

= = Major intersections = =

The entire route is in Harrietstown , Franklin County .
